

CALL FOR PAPERS

SIGDIAL 2018 CONFERENCE

July 12-14, 2018

<http://www.sigdial.org/workshops/conference19/>

The 19th Annual Meeting of the Special Interest Group on Discourse and Dialogue (SIGDIAL 2018) will be held at RMIT University, Melbourne, Australia, July 12-14, 2018.

SIGDIAL will be co-located with [ACL 2018](#) which will be held July 15-20 at the Melbourne Convention and Exhibition Centre.

The SIGDIAL venue provides a regular forum for the presentation of cutting edge research in discourse and dialogue to both academic and industry researchers. Continuing with a series of eighteen successful previous meetings, this conference spans the research interest areas of discourse and dialogue. The conference is sponsored by the SIGDIAL organization, which serves as the Special Interest Group in discourse and dialogue for both ACL and ISCA.

TOPICS OF INTEREST

We welcome formal, corpus-based, implementation, experimental, or analytical work on discourse and dialogue including, but not restricted to, the following themes:

- **Discourse Processing**
Rhetorical and coherence relations, discourse parsing and discourse connectives. Reference resolution. Event representation and causality in narrative. Argument mining. Quality and style in text. Cross-lingual discourse analysis. Discourse issues in applications such as machine translation, text summarization, essay grading, question answering, and information retrieval.
- **Dialogue Systems**
Open domain, task oriented dialogue and chat systems. Knowledge graphs and dialogue. Dialogue state tracking and policy learning. Social and emotional intelligence. Dialogue issues in virtual reality and human-robot interaction. Entrainment, alignment and priming. Generation for dialogue. Style, voice, and personality. Spoken, multi-modal, embedded, situated, and text/web based dialogue systems, their components, evaluation and applications.
- **Corpora, Tools and Methodology**
Corpus-based and experimental work on discourse and dialogue, including supporting topics such as annotation tools and schemes, crowdsourcing, evaluation methodology and corpora.
- **Pragmatic and/or Semantic Modeling**
The pragmatics and/or semantics of discourse and dialogue (i.e. beyond a single sentence).
- **Applications of Dialogue and Discourse Processing Technology**

SPECIAL SESSIONS

We also welcome papers to special sessions (www.sigdial.org/workshops/conference19/calls.html#callforspecialsessions). The special session proposal deadline is January 14, 2018, with acceptance decisions announced January 26, 2018. In order for papers submitted to special sessions to appear in the SIGDIAL conference proceedings, they must undergo the regular SIGDIAL review process.

SUBMISSIONS

The program committee welcomes the submission of long papers, short papers and demo descriptions. Papers submitted as long papers may be accepted as long papers for oral presentation or long papers for poster presentation. Accepted short papers will be presented as posters.

- **Long papers** must be no longer than eight pages, including title, text, figures and tables. An unlimited number of pages are allowed for references. Two additional pages are allowed for example discourses or dialogues and algorithms.
- **Short papers** should be no longer than four pages including title, text, figures and tables. An unlimited number of pages are allowed for references. One additional page is allowed for example discourses or dialogues and algorithms.
- **Demo descriptions** should be no longer than four pages including title, text, examples, figures, tables and references. A separate one-page document should be provided to the program co-chairs for demo descriptions, specifying furniture and equipment needed for the demo.

Authors are encouraged to also submit additional accompanying materials such as corpora (or corpus examples), demo code, videos, sound files, etc.

Multiple Submissions: Papers that have been or will be submitted to other meetings or publications must provide this information (see submission link). SIGDIAL 2018 cannot accept work for publication or presentation that will be (or has been) published elsewhere. Any questions regarding submissions can be sent to [program-chairs\[at\]sigdial.org](mailto:program-chairs[at]sigdial.org).

Blind Review: Building on last year's move to **anonymous long and short paper** submissions, **SIGDIAL 2018 will follow the new ACL policies for preserving the integrity of double blind review** (see author guidelines). **Unlike long and short papers, demo descriptions will not be anonymous.** Demo descriptions should include the authors' names and affiliations, and self-references are allowed.

Submission Format

All long, short, and demonstration submissions must follow the two-column ACL 2018 format. Authors are expected to use the ACL [LaTeX style template](#) or [Microsoft Word](#)

[style template](#) from the ACL 2018 conference. Submissions must conform to the official ACL 2018 style guidelines, which are contained in these templates. Submissions must be electronic, in PDF format.

Submission Link

TBA.

IMPORTANT NOTE: ADOPTION OF ACL 2018 AUTHOR GUIDELINES

As noted above, SIGDIAL 2018 is adopting the new ACL guidelines for submission and citation for long and short papers. Long and short papers that do not conform to the following guidelines¹ will be rejected without review.

Preserving Double Blind Review

The following rules and guidelines are meant to protect the integrity of double-blind review and ensure that submissions are reviewed fairly. The rules make reference to the anonymity period, which runs from 1 month before the submission deadline up to the date when your paper is either accepted, rejected, or withdrawn.

- You may not make a non-anonymized version of your paper available online to the general community (for example, via a preprint server) during the anonymity period. By a version of a paper we understand another paper having essentially the same scientific content but possibly differing in minor details (including title and structure) and/or in length (e.g., an abstract is a version of the paper that it summarizes).
- If you have posted a non-anonymized version of your paper online before the start of the anonymity period, you may submit an anonymized version to the conference. The submitted version must not refer to the non-anonymized version, and you must inform the program chair(s) that a non-anonymized version exists. You may not update the non-anonymized version during the anonymity period, and we ask you not to advertise it on social media or take other actions that would further compromise double-blind reviewing during the anonymity period.
- Note that, while you are not prohibited from making a non-anonymous version available online before the start of the anonymity period, this does make double-blind reviewing more difficult to maintain, and we therefore encourage you to wait until the end of the anonymity period if possible.

Citation and Comparison

If you are aware of previous research that appears sound and is relevant to your work, you should cite it even if it has not been peer-reviewed, and certainly if it influenced your

¹ From the first ACL 2018 CFP

own work. However, refereed publications take priority over unpublished work reported in preprints. Specifically:

- You are expected to cite all refereed publications relevant to your submission, but you may be excused for not knowing about all unpublished work (especially work that has been recently posted and/or is not widely cited).
- In cases where a preprint has been superseded by a refereed publication, the refereed publication should be cited in addition to or instead of the preprint version.

Papers (whether refereed or not) appearing less than 3 months before the submission deadline are considered contemporaneous to your submission, and you are therefore not obliged to make detailed comparisons that require additional experimentation and/or in-depth analysis.

MENTORING

Submissions with innovative core ideas that may be in need of language (English) or organizational assistance will be flagged for "mentoring" and accepted with recommendation to revise with a mentor. An experienced mentor who has previously published in the SIGDIAL venue will then help the authors of these flagged papers prepare their submissions for publication.

BEST PAPER AWARDS

In order to recognize significant advancements in dialogue/discourse science and technology, SIGDIAL 2018 will include best paper awards. All papers at the conference are eligible for the best paper awards. A selection committee consisting of prominent researchers in the fields of interest will select the recipients of the awards.

IMPORTANT DATES

Special Session Submission:	14 January 2018
Special Session Notification:	26 January 2018
Long, Short and Demonstration Paper Submission:	11 March 2018
Long, Short and Demonstration Paper Notification:	20 April 2018
Final Paper Submission:	13 May 2018
Conference:	12-14 July 2018

SIGDIAL 2018 ORGANIZING COMMITTEE

General Chair:

Kazunori Komatani, Osaka University, Japan

Program Chairs:

Diane Litman, University of Pittsburgh, USA

Kai Yu, Shanghai Jiao Tong University (SJTU), China

Local Chair:

Lawrence Cavedon, RMIT University, Australia

Sponsorship Chair:

Mikio Nakano, Honda Research Institute Japan, Japan

Mentoring Chair:

Alex Papangelis, Toshiba Research, UK

SIGdial President:

Jason Williams, Microsoft Research, USA

SIGdial Vice President:

Kallirroi Georgila, Institute for Creative Technologies, University of Southern California, USA

SIGdial Secretary:

Vikram Ramanarayanan, Educational Testing Service, USA

SIGdial Treasurer:

Ethan Selfridge, Interactions Corp, USA
