Call for Papers: 2nd Workshop on Natural Language Processing for Requirements Engineering (NLP4RE’19) & NLP Tool Showcase

http://fmt.isti.cnr.it/nlp4re/

March 19th, 2019 - Essen, Germany
Co-located with REFSQ’19 (25th Anniversary)

https://refsq.org/2019/welcome/

Deadline: January 14th, 2019.

Natural language processing (NLP) has played an important role in several computer science areas, and requirements engineering (RE) is not an exception. In the last years, the advent of massive and very heterogeneous natural language (NL) RE-relevant sources, like tweets and app reviews, has attracted even more interest from the RE community.

The main goal of the NLP4RE workshop is to set up a regular meeting point for the researchers on NLP technologies in (RE) in which the advances, challenges and barriers that they encounter may be communicated, and collaborations may emerge naturally.

This year, the workshop will include a showcase of industrial NLP tools for RE, in which different tool vendors will provide demos of their tools to the attendees.

The workshop will welcome contributions in the field of theory and application of NLP technologies in RE. We also encourage contributions that highlight challenges faced by industrial practitioners when dealing with requirements expressed in NL, and faced by academics in technology transfer studies. We also encourage tool demo papers, which will complement the showcase of industrial tools.

See the call for papers at:

Organising Committee

Fabiano Dalpiaz, Utrecht University, The Netherlands.
Alessio Ferrari, Consiglio Nazionale delle Ricerche, Istituto di Scienza e Tecnologie dell’Informazione “A. Faedo” (CNR-ISTI), Italy.
Xavier Franch, Universitat Politècnica de Barcelona (UPC-BarcelonaTech), Spain.
Cristina Palomares, Universitat Politècnica de Barcelona (UPC-BarcelonaTech), Spain.

Program Committee

Daniel M. Berry, University of Waterloo, Canada
Jörg Dörr, Fraunhofer IESE, Germany
Henning Femmer, Technical University of Munich, Germany
Davide Fucci, University of Hamburg, Germany
Vincenzo Gervasi, University of Pisa, Italy
Eduard Groen, Fraunhofer IESE, Germany
Emítza Guzmán, University of Zurich, Switzerland
Daniel Méndez, Technical University of Munich, Germany
Luísa Mich, University of Trento, Italy
Barbara Paech, University of Heidelberg, Germany
Mehrdad Sabetzadeh, University of Luxembourg, Luxembourg
Nicolas Samnier, University of Luxembourg, Luxembourg
Norbert Seyff, University of Zurich and University of Applied Sciences and Arts Northwestern, Switzerland
Michael Unterkalmsteiner, Blekinge Institute of Technology, Sweden
Andreas Vogelsang, TU Berlin, Germany
Frederik Simon Bäumer, Paderborn University, Germany
Reut Tsarfaty, Open University, Israel
Tejaswini Deoskar, Utrecht University, Netherlands
Liping Zhao, University of Manchester, UK
Anas Mahmoud, Louisiana State University, USA
Zahra Shakeri Hossein Abad, University of Calgary, Canada
Anna Perini, FBK, Italy
Itzel Morales Ramírez, Infotec, Mexico
Felice dell’Orletta, ILC-CNR, Italy
